

210-NEM-NJ Supplement  
PART NJ512 – Construction  
SUBPART F – As-Built Drawings

**NJ512.51 Applicability**

(b) As-built records will be prepared for all Class I through IV engineering practices. This record will include the construction survey notes and a set of the engineering plans. All construction dimensions that differ from the design dimensions will be shown in red on the plans. If the as-built check shows that the practice was installed as designed, the following statement is to be added in red to the drawings, “Practice Constructed as Designed”. The person making the check will date and initial the as-built plans. All construction survey notes will be securely attached to the as-built plans. A set of the as-built records will be retained in the cooperator’s file. Copies may be provided to the cooperator upon request.
